

## **Benjamin Franklin**

Hello, my name is Benjamin Franklin. I am one of the most famous Americans during the Revolution. I am an inventor, patriot, ambassador, and even the first postmaster general. The lightning rod was one of my most important inventions. I am also the oldest signer of the Declaration of Independence. During the war, I go to France many times to ask for the assistance of French troops, ships, and money to help defeat the British.

***Wear glasses and carry a cane. Walk very slowly to show your age.***
