

Mary Draper

Hello, my name is Mary Draper. I wanted to help the colonists in the Revolution, but I had very few skills in fighting, so I decided to help by melting down all of my family heirlooms (air-looms). They were pewter items, and made wonderful bullets for the colonists. I know my things are important to me, but so are the freedoms for which we are fighting.

Bring small metal objects. After speaking, act as if you are melting them down to make bullets.
