

Tall boots

1. Purchase sturdy material such as vinyl or felt.
2. Put on a pair of shoes that matches the color of the material.
3. Wrap material around your calf, creating in a cylinder from your ankle to just below your knee. Trim any excess material.
4. Use strong glue or self-adhesive Velcro to attach the seam together.
5. To secure the boot, you may want to add an elastic band that wraps around the bottom of your shoe.
