

Benjamin Franklin

Hello, my name is Benjamin Franklin. I am one of the most famous Americans during the Revolution. I am an inventor, patriot, ambassador, and even the first postmaster general. The lightning rod was one of my most important inventions. I am also the oldest signer of the Declaration of Independence. During the war, I go to France many times to ask for the assistance of French troops, ships, and money to help defeat the British.

Performance Instructions: Dress as a colonial man and carry a cane. While speaking, walk around using your cane for support. Costume note: usually Benjamin Franklin is depicted with a bald head and spectacles.
