

## Horus

Hello, my name is Horus. I am one of the most important gods in Egyptian mythology. According to the myth, after my Uncle Seth killed my father, my mother became magically pregnant with me. When I grew up, I avenged my father's death and fought great battles against my uncle for control of Egypt. After I defeated him, I became king of Egypt. Every pharaoh was thought to be me in human form.

***Performance Instructions: Dress as a god with the head of a falcon. While speaking, show everyone a picture depicting the eye of Horus. After speaking, re-enact a short battle with a teammate portraying your Uncle Seth (practice beforehand).***
