

## John Paul Jones

Hello, my name is John Paul Jones. I am one of America's first great naval officers. My flagship, Bonhomme Richard (BOHN-uhm REE-shard), attacked a British fleet in September 1779. When my ship began to sink and the British demanded my surrender, I refused to give up. We went on to capture the British ship and win the battle. I later became one of the founders of the U.S. Navy.

***Performance Instructions: Dress like a colonial sailor and carry a pretend sword. After speaking, hold up your sword and say, "I have not yet begun to fight!"***
