

## Order of Presentation/Card Assignment

There are 36 Expert Word cards. Each Expert Word must be assigned to a specific student. For classes under 36, students will be assigned multiple cards. Please ensure students are assigned on one team only. Presentations with 12-36 students in attendance will be placed in 4 teams of different colors. Teams are designated by color.

Presentations with 12 students and under can be placed in 3 teams of different colors. Consider mixing students from different teams throughout the order to aid student engagement. To provide opportunity for equal points use the following: 4 teams = 9 Expert cards per team; 3 teams = 12 Expert cards per team. Do not give this order to students.
